

FRANKLIN COUNTY BOARD OF HEALTH
REGULATION 719
Approval of Building Plans

No person shall construct or change any building, group of buildings or place having or intended to have sinks, plumbing, drains, or other places where offensive substances or liquids may accumulate or be deposited until plans therefor have been submitted to and approved by the Board of Health. The plans shall show and describe the manner in which the provisions of Regulation 701, of the Franklin County District Board of Health Sanitary Regulations, and Chapter 3701-28 of the Ohio Administrative Code, are to be met. In granting an approval authorized by this regulation the Board of Health may stipulate such modifications, conditions, and provisions as the protection of the public health and the prevention of a nuisance may require.
